DETAILED ACTION

Allowable Subject Matter

Claims 42-59 are allowed over prior art.

The following is a statement of reasons for the indication of allowable subject matter:

Regarding claim 42-59, the prior art fails to teach an x-ray apparatus or method by providing at least two detectors arranged in at least two levels with sensor plane substantially parallel to a surface of a carrying member and angularly oriented to incident x-ray beams, and determining an acceleration time and deceleration time of a scanning so that the parts of an image obtain substantially a same photon statistics as the rest of the image as claimed in independent claims 42 and 51.

Conclusion

This application is in condition for allowance except for the following formal matters:

Claim 51 is objected to because of the following informalities:

Regarding claim 51 at line 13-20, the claimed limitation is functional or operational language. The structure which goes to make up the device must be clearly and positively specified. The claim must be in one sentence form only.

Appropriate correction is required.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
